27th February 2009

The President of the Stock Exchange of Thailand
The Stock Exchange of Thailand

Subject: Progress Report on dispute in relation to the access charges

Reference is made to a lawsuit that True Move Company Limited (“True Move”), a subsidiary of True Corporation Public Company Limited (“True”), filed against TOT Public Company Limited (“TOT”) with the Central Administrative Court where True Move sought an order from the court requiring TOT to comply with the law, i.e. to ensure the interconnection of the networks for True Move’s 1.5 million numbers issued by the National Telecommunications Commission (“NTC”). The court also ordered TOT to pay a compensation to True Move for the wrongful act committed by TOT. The Central Administrative Court has previously in this case, prescribed the provisional remedial measure or means before delivery of the judgment for True Move, requesting TOT to interconnect True Move's numbers with TOT's network until a final judgment is issued or the court ordering otherwise.

On 26th February 2009, the Central Administrative Court made a ruling in Case Black No. 123/2550 and Case Red No. 327/2552 and ordered TOT

- 1) To interconnect with True Move's 1.5 million numbers issued by NTC immediately when the judgment of the Central Administrative Court becomes final.
- 2) To pay compensation at the amount of THB 1 million within thirty days from the date on which the judgment of the Central Administrative Court becomes final
- 3) To refund the jurisdiction fee in proportional to the award granted to True Move.

In addition, the court has ordered that the existing provisional remedial measure or means before delivery of judgment shall remain effective until the judgment of the Central Administrative Court becomes final.

Please be informed accordingly.

Sincerely yours
