**INTERIM CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS
(UNAUDITED)**

AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL STATEMENTS

To the Shareholders and the Board of Directors of True Move Company Limited

I have reviewed the accompanying consolidated and company balance sheets of True Move Company Limited and its subsidiary and of True Move Company Limited as at 30 June 2007, and the related consolidated and company statements of income for the three-month and six-month periods ended 30 June 2007 and 2006, and the related consolidated and company statements of changes in shareholders' equity, and cash flows for the six-month periods ended 30 June 2007 and 2006. The Company's management is responsible for the correctness and completeness of information in these interim financial statements. My responsibility is to issue a report on these interim financial statements based on my reviews.

I conducted my reviews in accordance with the standard on auditing applicable to review engagements. This standard requires that I plan and perform the reviews to obtain moderate assurance as to whether the interim financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit, and accordingly, I do not express an audit opinion.

Based on my reviews, nothing has come to my attention that causes me to believe that the interim financial statements referred to above are not presented fairly, in all material respects, in accordance with generally accepted accounting principles.

I have audited the consolidated and company financial statements for the year ended 31 December 2006 of True Move Company Limited and its subsidiary and of True Move Company Limited in accordance with generally accepted auditing standards and expressed an unqualified opinion on those statements in my report dated 27 February 2007. The consolidated and company balance sheets as at 31 December 2006, presented for comparative purposes, are components of the financial statements which I have audited and issued a report thereon as stated above, and I have not performed any other auditing procedures subsequent to the date of that report.

9 Borrowings (Continued)

9.1 Borrowings from bank and financial institutions (Continued)

The borrowings carry interest at London Interbank Offer Rate (LIBOR) plus a fixed percentage per annum, the reference rate (THBFIX) plus a fixed percentage per annum or Minimum Lending Rate (MLR) plus a fixed percentage per annum. The loan from an offshore financial institution will be due in June 2012. The first repayment of the other long-term borrowings from onshore and offshore financial institutions was due in September 2006 and the final maturity date will be 31 December 2011 or if no Concession Conversion has occurred within 31 December 2007, the final maturity date will be 30 June 2011.

Included in long-term borrowings are loans from a related company amounting to Baht 5,077.86 million (31 December 2006: Baht 5,579.38 million) (Note 14).

Under the terms of the agreements in relation to the long-term borrowings mentioned earlier, the Company and its subsidiary must comply with certain significant conditions at the specific period as identified in the agreements.

In March 2007, the Company received the consent of certain lenders to temporarily amend financial covenants requiring the Group to maintain certain financial ratios under its financing agreements. This amendment is applicable until 30 September 2007. The Group is currently in the process of refinancing its long-term borrowings. If this refinancing is unsuccessful and the Group is unable to satisfy the financial covenants under the terms of its financing agreements, the Group may be required to obtain certain waivers of debt covenants. If the lenders do not agree to such waivers or amendments, such failure, if not cured within a 30-day grace period, would constitute a technical default under the terms of the agreements. In the event of a technical default under these financing agreements, the lenders would have the right to accelerate the indebtedness outstanding thereunder if they so choose. The management expects that the refinancing of its long-term borrowings will be completed and able to negotiate with the lenders for new debt covenants that are more appropriate with the new credit profile.

16 Contingent liability

16.1 Regulatory costs

On 5 October 2006, the Company issued a letter to TOT requesting it to enter into negotiation regarding the interconnection agreement (“IC”) between its network and TOT’s network. On 17 November 2006, the Company issued a written notification informing TOT and CAT that it will cease payment of access charge under the Access Charge Agreement on the basis that the rate and the collection of access charge under the Access Charge Agreement were contrary to the law in a number of respects. The Company also requested TOT to enter into the interconnection charge agreement to be in compliance with the law or temporarily applying the provisional rate announced by the NTC while negotiations on the interconnection agreement with TOT has not been concluded.

However, on 23 November 2006, TOT issued a letter inform the Company claiming that the Company was not entitled to interconnect its network with the TOT network because the Company was not a telecommunications licensee, as granted by the NTC connecting to its network, and did not have its own telecommunications network. TOT also disputed that the Access Charge Agreement did not violate any law and that the rate and the collection of access charge under the Access Charge Agreement continued to apply. As a result of the cessation of access charge payments by the Company, TOT threatened to block our subscribers from accessing its network. Currently, the Company are involved in a dispute with TOT in the Central Administrative Court relating to interconnecting network of 1.5 million new numbers recently assigned by the NTC.

On 24 January 2007, the Company field a lawsuit with the Central Administrative Court against TOT, claiming that TOT shall comply with the law by enabling their subscribers to connect with the network of our 1.5 million numbers as assigned by the NTC to the company and sought for an injunction.

16 Contingent liability (Continued)

16.1 Regulatory costs (Continued)

On 26 January 2007, the Court granted an injunction ordering that TOT shall enable their subscribers to connect with the network of our 1.5 million new numbers. TOT appealed the Court's order and requested a stay of execution of the Court's order on 30 January 2007. The Supreme Administrative Court recently ruled that the order of the Central Administrative Court is righteous. TOT is currently complying with the Court's injunction order by keying the office data and translator for enabling their subscribers to connect with our 1.5 million numbers. The lawsuit is still pending in the Central Administrative Court.

Subsequent to the initiation of interconnection regime by the Company and other telecommunication operators, the Company decided to cease payments of access charge to TOT from 18 November 2006 onwards.

Under a final court judgment, if the Company had to pay such access charges, the Company would be liable to accrue additional access charges of Baht 455.61 million and of Baht 2,075.68 million, excluding a penalty that the Company may be required to be paid equal to 100% of any access charge that CAT has paid to TOT on the Company's account and interest at the rate of 1.25% per month for late payment, for the period from 18 November 2006 to 31 December 2006 and for the period from 1 January 2007 to 30 June 2007 respectively. Nevertheless, the net effect to the statement of income for this regard, net of revenue sharing to CAT, would be Baht 204.25 million and of Baht 1,615.88 million for the period from 18 November 2006 to 31 December 2006 and for the period from 1 January 2007 to 30 June 2007, respectively. The management and its external lawyer have opinion that the Company would not be liable to pay the access charge.

16.2 Concession agreement

A recent Council of State opinion suggesting that the concession agreement with CAT may have required Thai Cabinet approval that was not obtained may give the Thai Cabinet leverage to try to renegotiate or terminate the concession agreement. In May 2007, the Council of State issued an opinion stating that the concession agreement with CAT may require the Thai Cabinet's approval, pursuant to the Act on Private Sector Participation in State Undertaking (the "Act") if the value of our investments and assets in the business were Baht 1,000 million or more. However, when the Company entered into the agreement and the amendment, the Company did not obtain. The Council of State's opinion asked CAT to determine whether the concession agreement requires Thai Cabinet approval. If CAT determines that this approval is necessary, then CAT must appoint a special committee to form an opinion as to whether the concession agreement should be approved, which opinion would be submitted to the Thai Cabinet. Following its receipt of this opinion, the Thai Cabinet will decide what actions, if any, to take, including whether to revoke or require the amendment of the concession agreement. The management believes that the Concession agreement is still valid and will receive on approval by the Cabinet in the Company's favour.

17 Litigation and arbitration dispute

On 23 August 2006, CAT filed a lawsuit against the Company at the Central Administrative Court claiming for space and antenna rental amounting to Baht 12.48 million. The lawsuit is currently in the judicial process of the Central Administrative Court.

On 13 October 2006, CAT filed an arbitration claim against the Company claiming for numbering fee amounting to Baht 104.58 million. The Company submitted the statement of objection on 13 March 2007. The case is under consideration of arbitral process.

On 1 December 2006, the Company was filed a civil case by a group of person claiming for damage amounting to Baht 44.37 million. The case is under the court process.

The ultimate outcome of these cases are presently unable to be determined, accordingly, no provision for possible liability has been made in the Company and consolidated financial statements.
