

**Memorandum of Understanding
Between
Indonesia Group Against Digital Divide,
Meaningful Broadband Working Group,
Digital Divide Institute**

The undersigned parties share the inspiring challenge of working with ICT stakeholders to establish a model by which broadband would have transformational and "meaningful" impacts on Indonesia and Thailand and its citizens. Noting this common interest, the undersigned parties representing Indonesia Group Against Digital Divide in Indonesia and Meaningful Broadband Working Group in Thailand agree to share best practices involved in understanding and overcoming these challenges. Additionally Digital Divide Institute, represented by the undersigned party, agrees to facilitate this arrangement by sharing ideas and information via the web site digitaldivide.org.
